

TUTANKHAMUN

AND THE GOLDEN AGE OF THE PHARAOHS

May 12, 2007

Join the
Baltimore / Luxor / Alexandria
Sister City Committee
and
Friends of the
Ancient Collection at the Walters

The exhibition will include 50 major objects excavated from Tutankhamun's tomb, including his royal diadem — the gold crown discovered encircling the head of the king's mummified body that he likely wore while living — and one of the gold and precious stone inlaid canopic coffinettes that contained his mummified internal organs and much more.
